

JULY FOODSTUFFS EXPORTS DECLINE

Month's Record in Keeping With General Trendency, Report Says

DIFFERENCE MARKED

Adjustments Indicate a Slow Return to Antebellum Trade Conditions

WASHINGTON, Aug. 25.—Foodstuffs exported during July declined sharply, according to foreign trade reports issued today by the commerce department.

Grain exported during the month aggregated \$46,000,000 as compared with \$64,000,000 in July a year ago while for the seven months ended with July grain shipments aggregated \$275,000,000 against \$400,000,000 during the same months of 1921.

Exports of meats for July amounted to \$12,000,000 as against \$14,000,000 last year, while for the seven months period the total was \$74,000,000 compared with \$100,000,000 during the corresponding months of last year. Exports of wheat for July aggregated \$13,000,000 against \$20,000,000 a year ago.

Corn shipments for the month aggregated \$1,000,000 as against \$11,000,000 a year ago.

The general decline in the exports of meat and most products for July and for the seven months period, the department said, is a tendency which has been noted for some time.

"Most of these adjustments," the department said, "are in accord with what has been anticipated in the trend of foodstuffs trade and they indicate in general the slow return to pre-war conditions which should be expected in the port trade with Europe."

Found Speedy Relief Had Been Ill Eighteen Months.

Letter From Mrs. Williams of Boynton, Okla., Artists Her Gratitude to the Inter-State Doctors.

Greater strides have been made in medical science than in any of the other known sciences. This in connection with the awakening of mankind to the real value of health and the necessity for following the laws of hygiene and the wisdom of the great mass of people in the prevention of disease is rapidly making us a healthy nation.

Wonderful results are being brought about by the intravenous direct to the blood stream methods. The following from Mrs. Williams should be of interest:

"I had been ill for 18 months. I had treated with doctors in Tulsa, Boynton, Sapulpa, Okmulgee, Muskogee and elsewhere. I was continually getting worse. My attention was called to the Inter-State Doctors. I called on them for an examination and placed myself in their care. My worst symptoms had entirely disappeared in three days, and I have received many times more good in 10 days than I had in all my treatments before. I will be glad to talk to anyone personally as to what these doctors have done for me and cheerfully recommend any sufferer to call on them.

"MRS. C. H. WILLIAMS."

With the special methods of direct treatment to lung tissues, nerve centers or to the blood stream itself, the Inter-State Doctors have combined far-reaching methods of their own.

They have helped thousands back to health. Some have been cured in one treatment such as varicose and other enlargements.

They are prepared to administer the genuine French 914 to a limited number of cases.

The diseases treated by the Inter-State Doctors are all chronic diseases of the blood, nerves, kidney, liver and stomach, including catarrh, rheumatism, indigestion, constipation, nervousness, loss of nerve force, goitre, gall stones, diseases of women and diseases of men.

Consultation and examination is free.

Office hours are 9-12, 1-5, evenings 7-9; Sundays 10-12.

The Tulsa offices are at 212-219 Security Bldg., corner Second and Main streets—Advertisement.

BOYS' HOME GIVEN BOOST

Nearly \$500 Realized From Ice Cream Social Friday Night.

Nearly \$500 was realized from the ice cream social held at the Tulsa boys' home Friday night under auspices of the Rotary Association of Rotarians. The exact amount was \$475, according to Mrs.

N. R. Graham, secretary of the "Anns." Many cakes were auctioned off by Col. J. B. Queen, veteran auctioneer, who donated his services.

The highest price, \$25, was paid by Mrs. James H. Gardner for a cake baked by Mrs. E. E. Oberholtzer. Another cake brought \$15 and another \$10. Mrs. Howard Meyer

said the cake auction alone brought \$320.50. J. B. Queen head of the Purity Ice Cream company, donated 35 gallons of ice cream, but this proved insufficient so great was the demand.

Most of the money raised Friday night goes for the purchase of rugs for the boys' home. Rotary Anns were well pleased with results.

Everything Comes to Him Who Waits?

A long time ago some philosopher is reported to have said "Everything comes to him who waits," and a great many people are still using that as an excuse for waiting for something to happen. But the philosopher, wise though he was, only said part of it. He should have added, "if he works while waiting."

Nothing comes to the man who waits unless he makes it come to him. Success doesn't follow men around, begging recognition. It must be pursued relentlessly, year in and year out, and the fellow who waits for it to come to him has a mighty slim chance of being successful. He must work—and he must save. Neither will succeed without the other.

If you have been "just waiting" now is a right good time to turn over a new leaf. Start to save, and watch things come to you.

We will loan you a handsome bank to help you save.
